Multidisciplinary designer with experience across UI/UX, visual, and brand design. Combines user research, strategic thinking and human-centered design methods to create intuitive digital experiences across advertising, hospitality, and healthcare.

EDUCATION	University of California, Berkeley Master of Design, MDes Distinguished Scholar Award	Expected Dec 2027
	Central Saint Martins, College of Art, London, UK BA (Honors) Graphic Communication Design, First Class Honors	Sep 2019 - Jun 2022
PROJECTS	POLY Health UI/UX Design	Feb 2022 - Jun 2026
	Built a community-driven digital platform for people with polycystic ovary syndrome (PCOS), bridging the gap between traditional healthcare information and their everyday needs while creating a space to share experiences, find peer support, and feel understood. Applied an empathetic design approach to make PCOS education, symptom-based recipes, and lifestyle guidance approachable. Conducted task-based usability testing of recipe-saving and self-check flows, using feedback to refine navigation, clarify interaction cues, and explain unfamiliar health terms.	
EXPERIENCE	Corinthia London Junior Sous Chef	Jan 2023 - May 2026
	Pitched and partnered with the hotel's marketing team to develop a new visual system spanning menu design, social media content, and seasonal campaigns, applying brand identity across 15+ digital and in-person guest touchpoints and broadening the five-star hotel's appeal to a younger customer base. Directed pastry production and collaborated with the Head Pastry Chef to translate seasonal culinary concepts into immersive dining experiences through dessert design, presentation, seasonal space curation, and visual storytelling tailored to each restaurant's ambience and positioning.	
	Wunderman Thompson Designer	Jan 2020 - Apr 2021
	Partnered with strategy and creative leads to craft a refreshed visual language for CHT, Taiwan's largest telecom provider, supporting its shift towards a younger, more digitally forward audience. Owned the rollout and scaling of CHT's new visual system across 50+ campaign assets and key visuals, establishing reusable design patterns across 25+ media outlets and 100+ nationwide placements to support a cohesive customer-facing presence. Drove interaction design and prototyping for Mazda's family-focused showroom experience, translating customer needs and brand storytelling into playful interactive features—including a children's playroom and puzzle-based activities—designed to enrich the dealership journey.	
AWARDS	Bake Off: The Professionals Season 10 Team Leader, Contestant	Jan 2025 - Mar 2025
	Led the team through the internationally televised pastry competition, securing 1st and 2nd place in the first two episodes with the first-ever optical illusion chocolate showpiece in the program's 10-year history.	
SOFTWARE	Figma + MCP, Codex, Adobe Creative Suite (Illustrator, InDesign, Photoshop, After Effects), Claude Design	
SKILLS	User Research, UX/UI Design, Wireframing, Interaction Design, Prototyping, Design System, Brand Identity
