linkedin.com/in/kcyang/

Multidisciplinary designer with 6+ years of experience across UI/UX, visual, and brand design. Combines user research, visual systems, and strategic thinking to create intuitive digital experiences across advertising, hospitality, and healthcare.

|            |                                                                                                                                                                                                                                                                                                                                  |                     |
|------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| EDUCATION  | University of California, Berkeley<br>Master of Design                                                                                                                                                                                                                                                                           | Expected Dec 2027   |
|            | Central Saint Martins, College of Art, London, UK<br>BA (Honors) Graphic Communication Design, First Class Honors                                                                                                                                                                                                                | Sep 2019 - Jun 2022 |
| EXPERIENCE | Corinthia London   Junior Sous Chef                                                                                                                                                                                                                                                                                              | Jan 2023 - May 2026 |
|            | Directed pastry production and collaborated with the Head Pastry Chef to translate seasonal culinary concepts into <b>immersive dining experiences</b> through dessert design, presentation, seasonal space curation, and visual storytelling tailored to each restaurant's ambience and positioning.                            |                     |
|            | Pitched and partnered with the hotel's marketing team to <b>develop a new visual system</b> spanning menu design, social media content, and seasonal campaigns, applying <b>brand identity</b> across <b>15+</b> digital and in-person guest touchpoints and broadening the five-star hotel's appeal to a younger customer base. |                     |
|            | Wunderman Thompson   Designer                                                                                                                                                                                                                                                                                                    | Jan 2020 - Apr 2021 |
|            | Partnered with strategy and creative leads to craft a <b>refreshed visual language</b> for CHT, Taiwan's largest telecom provider, supporting its shift towards a younger, more digitally forward audience.                                                                                                                      |                     |
|            | Owned the rollout and scaling of CHT's new visual system across <b>50+</b> campaign assets and key visuals, establishing reusable design patterns across <b>25+</b> media outlets and <b>100+</b> nationwide placements to support a cohesive customer-facing presence.                                                          |                     |
| PROJECTS   | Drove <b>interaction design</b> and <b>prototyping</b> for Mazda's family-focused showroom experience, translating customer needs and <b>brand storytelling</b> into playful interactive features—including a children's playroom and puzzle-based activities—designed to enrich the dealership journey.                         |                     |
|            | POLY Health   UI/UX Design                                                                                                                                                                                                                                                                                                       | Feb 2022 - Jun 2022 |
|            | Built a <b>community-driven digital health platform</b> bridging the gap between standard healthcare offerings and the lived experiences of people navigating PCOS.                                                                                                                                                              |                     |
| AWARDS     | Grounded in <b>in-depth user research</b> and <b>empathetic design principles</b> , POLY translates complex health information and real user needs into an intuitive, accessible, and empowering experience.                                                                                                                     |                     |
|            | Bake Off: The Professionals Season 10   Team Leader, Contestant                                                                                                                                                                                                                                                                  | Jan 2025 - Mar 2025 |
|            | Led the team through the internationally televised pastry competition, <b>securing 1<sup>st</sup> and 2<sup>nd</sup> place</b> in the first two episodes with the first-ever optical illusion chocolate showpiece in the program's 10-year history.                                                                              |                     |
| SOFTWARE   | UC Berkeley MDes Distinguished Scholar Award                                                                                                                                                                                                                                                                                     |                     |
|            | Jul 2026                                                                                                                                                                                                                                                                                                                         |                     |
| METHOD     | Adobe Creative Suite (Illustrator, InDesign, Photoshop, After Effects), Figma + MCP, Claude Design                                                                                                                                                                                                                               |                     |
